Ryan meeting

22 Feb 2021

1) Defense

2) Diss submission in BC libraries

- embargo? → not necessary at all

- keywords & JEL codes? → you do what you want
But they don't matter at all.

Title: Essays on Macroeconomic Expectations
to differentiate yourself a little.

→ These things are residues of old
referencing systems (analogy). They
are not used these days.

The only thing ppl will read is the title.

JMP & ICT are ready for submission for field journals.

Communication isn't → this will be the priority.
